

# About American Air Cannons

---

Established in 2001 American Air Cannons has continued to provide handmade pneumatic Potato Cannons, T-Shirt Cannons, Golf Ball Cannons and Tennis Ball Cannons to North America, Canada and Europe.

We build custom air cannons and kits for affiliate partners and corporate entities world wide.

We have provided air cannons for the US Coast Guard, Swift Water Rescue, Extreme Sports and private corporations for over 10 years

[Air Cannons](#), Spud Guns, Potato Cannons, Potato Launchers, Combustion, Pneumatic... No matter what you call it, potato guns are great fun when used safely.

It's important to remember that 'spud guns' are not toys and demand the same cautions and responsibilities as traditional firearms. Adult supervision during operation is the number one safety requirement in responsibly owning any type of potato cannon. If you are under 18, get an adult to help you.

It is your responsibility to educate yourself before operating any type of launcher.

## About American Air Cannons

I started out building "Polish Cannons" for my nephews. You remember, 3 or 4 soup cans taped together, some lighter fluid and a Tennis Ball.

After inconsistent launches and lighter fluid everywhere, I knew there had to be a better and safer way.

I decided to create pneumatic spud gun or potato cannon air cannons with the potential for making them launch consistently, launch with more power, and safe for anyone wishing to shoot one. [See our videos here.](#)

By switching from a flammable fuel source to air, I was able to achieve all the above. These pneumatic spud gun or potato cannon air cannons launch every time.

They have an endless and inexpensive fuel source by filling them with air from a compressor or automobile tire inflator.

There are no flammable materials used to ignite the cannon, therefore eliminating chances of fire, explosions or burns.

These guns are perfect for launching potatoes, Tennis Balls, Golf Balls Confetti and Lemons. They are perfect for launching T-Shirts during a sporting event.

Because they don't need a flammable fuel for ignition, they are perfect for launching potatoes or vegetables in the forest or a field full of weeds and dry brush.

### Safety First

1. Make sure you know whether or not the gun is loaded. Treat the gun as if it is loaded at all times. In other words do not point it at people or animals. Always point it in a safe direction when using or loading. Pay attention to the line traced by the potato gun's muzzle, make sure it doesn't cross anyone or anything you do not wish to shoot.

Potato guns can be dangerous, or even deadly when improperly handled. Never store or transport a loaded potato gun. Don't load a potato gun unless you intend to shoot it immediately.

2. Do not put your finger on the firing mechanism unless the gun is pointed at the intended target. Simple: on target means on trigger, off target means off trigger.

3. Be sure of your target and what is beyond it. You must always launch spuds in a safe location. This means NEVER point or fire at anything that (1) you cannot clearly and easily identify as a target, and (2) that would pose a danger to anyone were your ammo to stray, or ricochet. This means always knowing where your ammo has the potential to go. Never point the gun or pull the trigger at a close-range target without a backstop that will STOP your fire.

4. A very important, but often overlooked rule, never hand a gun to anyone who doesn't understand and abide by these rules. Once they are holding the gun, it is their, not your, responsibility to handle it safely, but you will be putting your life and property as well as the life and property of everyone else on the line if you do so.

Do not use spud guns in extremely cold or extremely hot weather, PVC is a good material, but it does have its limits. PVC may become brittle in extreme temperatures.

Never go beyond 100 PSI with a PVC spud gun. **Be Safe! Have Fun!**

# Air Cannons Kits

---

## **MPC-15 Potato Cannon Kit: \$199.00**

Below is a picture of the MPC-15 Potato/Ping Pong Ball Cannon model kit. It comes unassembled with a pneumatic trigger. It has a detachable barrel measuring 36" x 1.5". This easy to handle Potato/ Ping Pong Ball Cannon can shoot well over 100 yards on every shot with compressed air as the fuel. It features a sharpened barrel for easy loading of potatoes. It accepts the full line of M Series interchangeable barrels. See the barrel section for more choices. Cannons Kits are shipped unpainted. No special tools or parts are needed.

**These Cannons are only available for shipping within Continental USA**

---

## **MGB-20 Golf Ball Cannon Kit: \$199.00**

Below is a picture of the MGB-20 Golf Ball Cannon model kit. It comes unassembled with a pneumatic trigger ignition system. It has a detachable barrel measuring 36" x 2.0". This easy to handle Golf Ball Cannon can shoot well over 1/4 Mile on every shot with compressed air as the fuel. It accepts the full line of M Series interchangeable barrels. See the barrel section for more choices. Cannons Kits are shipped unpainted. No special tools or parts are needed.

**These Cannons are only available for shipping within Continental USA**

### **MBPC-15 Black Widow Heavy Duty Potato Cannon Kit: \$299.00**

Below is a picture of the MBPC-15 Black Widow Heavy Duty Potato Cannon model. It comes with a pneumatic trigger. It has a fixed barrel measuring 36" x 1.5". This easy to handle Heavy Duty Potato Cannon can shoot well over 400 yards on every shot with compressed air as the fuel. Cannons Kits are shipped unpainted. No special tools or parts are needed.

**These Cannons are only available for shipping within Continental USA**

---

### **MBGB-20 Viper Heavy Duty Golf Ball Cannon Kit: \$299.00**

Below is a picture of the MBGB-20 Viper Heavy Duty Golf Ball Cannon model. It comes with a pneumatic trigger. It has a fixed barrel measuring 36" x 1.5". This easy to handle Heavy Duty Golf Ball Cannon can shoot well over 1/2 Mile on every shot with compressed air as the fuel. Cannons Kits are shipped unpainted. No special tools or parts are needed.

**These Cannons are only available for shipping within Continental USA**

### **MBTB-25 Heavy Duty Tennis Ball Cannon Kit: \$299.00**

Below is a picture of the MBTB-25 Heavy Duty Tennis Ball Cannon model kit. It comes unassembled with a pneumatic trigger. It has a fixed barrel measuring 36" x 2.5". This easy to handle Tennis Ball Cannon can shoot well over 100 yards on every shot with compressed air as the fuel. Cannons Kits are shipped unpainted. No special tools or parts are needed.

**These Cannons are only available for shipping within Continental USA**

---

### **MBTS-30 Heavy Duty T-Shirt Cannon Kit: \$299.00**

Below is a picture of the MBTS-30 T-Shirt Cannon model kit. It comes unassembled with a pneumatic trigger. It has a fixed barrel measuring 36" x 3.0". This easy to handle T-Shirt Cannon can shoot your team T-Shirts into the crowd on every shot with compressed air as the fuel. It can be upgraded to offer an on board charging system that can be hooked up to a remote source of compressed air without the chamber being constantly charged. Cannons Kits are shipped unpainted. No special tools or parts are needed.

**These Cannons are only available for shipping within Continental USA**

# Air Cannons Pre Assembled

---

## **MPC-15 Potato/PingPong Ball Cannon Pre Built: \$299.00**

Below is a picture of the MPC-15 Potato/Ping Pong Ball Cannon model. It comes with a pneumatic trigger. It has a detachable barrel measuring 36" x 1.5". This easy to handle Potato/Ping Pong Ball Cannon can shoot well over 100 yards on every shot with compressed air as the fuel. It features a sharpened barrel for easy loading of potatoes. It accepts the full line of M Series interchangeable barrels. See the barrel section for more choices. Cannons are shipped Pre Built and unpainted. To avoid possible shipping damage, some easy final assembly is required. No special tools or parts are needed.

**These Cannons are only available for shipping within Continental USA**

---

## **MGB-20 Golfball Cannon Pre Built: \$299.00**

Below is a picture of the MGB-20 Golf Ball Cannon model. It comes with a pneumatic trigger ignition system. It has a detachable barrel measuring 36" x 2.0". This easy to handle Golf Ball Cannon can shoot well over 1/4 Mile on every shot with compressed air as the fuel. It accepts the full line of M Series interchangeable barrels. See the barrel section for more choices. Cannons are shipped Pre Built and unpainted. To avoid possible shipping damage, some easy final assembly is required. No special tools or parts are needed.
